ORGANIC

*When Science  
meets Nature*

## *ORGANIX Cosmetix - When Science Meets Nature*

*Today, more and more consumers prefer organic products, without synthetic and chemical ingredients. However, when it comes to Anti-Aging skincare, many still rely on advanced synthetic cosmetic products.*

*The latest technological developments have enabled some of the leading laboratories in the world to develop advanced, certified organic and natural Anti-Aging ingredients.*

*ORGANIX Cosmetix successfully combines the best of these innovations in a complete Anti-Aging line of facial skin care products.*

*This line is designed for those who wish to enjoy the best of both worlds – to attain a young, beautiful and healthy appearance naturally, through organic cosmetics.*

*Certified organic products respect your skin, your health, the environment and preserve our planet.*

# What Does “Organic Cosmetics” Mean?

*Organic cosmetics include natural and vegetable origin raw-materials, which were grown without chemical interference such as fertilization or pest control. The active ingredients are produced in natural procedures and environmental-friendly (cold pressing) methods. The packages are also non-contaminating and recyclable.*

## **WHAT IS COSMOS®?**

*Cosmos is an association of 5 of the world's leading standards-setters for organic cosmetics: French Ecocert and Cosmebio, German BDIH, Italian ICEA and British Soil Association. These five organizations certify collectively 85% of the entire certified organic market.*

*Cosmos certified cosmetics incorporate the values and ideals of each one of these organization, and therefore these products offer consumers the best of each world.*

### ***characteristics of certified organic cosmetics:***

**YES**

- \* Organic and natural ingredients
- \* Recyclable packaging

## *The Anti Aging Line*

*Organix Cosmetix presents an innovative line of organic certified Anti-Aging products based on Plant Stem Cells.*

*The products contain 3 different types of plant stem cells for wrinkle filling, firming and rejuvenating the skin, and decreasing the appearance of dark circles under the eyes.*

# *The Science of Plant Stem Cells*

*Sustainable technology for natural efficacy*

*Our skin has the potential to remain young.*

*This potential exists in our stem cells, which are located in the basal layer of our epidermis. A stem cell is a non-specialized cell capable of self-renewal that has the potential to become many types of specialized cells (Cell Differentiation).*

*Like us, plants also have stem cells that serve the same purpose of regeneration. Recent studies have demonstrated that certain plant stem cells, when combined in skin care products, produce bioactive response to environmental and biological attacks and provide a strong anti-aging effect.*

*Plant Stem Cell culture is an innovative and sustainable technology for natural and powerful anti-aging cosmetic products.*

*The Anti Aging line contains some of the best natural anti-aging ingredients with beneficial properties that were proven in efficacy tests:*

**LEONTOPODIUM ALPINUM STEM CELLS GX™** - For wrinkle filling and firming.

**GARDENIA STEMS GX™** - For Collagen restructuring - Multi level protection of the collagen network

**ECHINACEA STEMS GX™** - Dark circle fading.

*All the products contain **CRISTALHYAL** - a pure and natural Hyaluronic Acid for intensive moisture and protection from external aggressions.*

## ***Stem Cells with multiple Anti-Aging actions: Firming, rejuvenation, moisturizing, wrinkle prevention and wrinkle decrease.***

### ***GARDENIA STEMS GX™ – a triple targeted protection of collagen systems***

*Gardenia Jasminoides is a native plant of China and known in Chinese medicine for its healing properties in cases of trauma and injuries.*

#### ***The main properties of GARDENIA STEMS GX™:***

- 1. Multi-level protection of the collagen network*
- 2. Restores the balance of collagen turnover*
- 3. Prevents collagen loss in aged or prematurely aged skin*
- 4. Stimulates new collagen synthesis*

### ***LEONTOPOD STEMS GX™ – the wrinkle filler***

*Leontopodium alpinum or Edelweiss is a rare and strictly protected plant that became the symbol of Alps. The Edelweiss, native of high mountains, has developed many defensive mechanisms in order to survive the extreme heights and environmental conditions and protect itself from high level exposure to solar radiations.*

#### ***The main properties of LEONTOPOD STEMS GX™:***

- 1. Reduces the appearance of wrinkles*
- 2. Prevents collagen loss*
- 3. Firming and restructuring effects*

### ***ECHINACEA STEMS GX™ – for dark circle fading.***

*Echinacea angustifolia is an herbaceous plant native to North America and was used as traditional herbal remedies by the Great Plains Indian tribes. It is perfect for treating the delicate skin around the eyes thanks for its many benefits:*

#### ***The main properties of ECHINACEA STEMS GX™:***

- 1. Reduce the appearance of dark circles by preventing leakages of blood vessels.*
- 2. Reinforce and preserve the integrity of the delicate skin around the eyes.*
- 3. Protect the eyes area against inflammation induced by pollution, stress conditions, UV irradiation, tiredness and aging.*
- 4. Inhibit Collagen degradation*

### ***HYALURONIC ACID – optimal hydration & protection***

*Skin hydration is regulated by the balance between transepidermic water loss (TEWL) and the skin's ability to retain water. Cristalhyal, a pure Hyaluronic Acid (HA), fills in the space between the collagen fibers in the dermis, where its polymer network supports the extracellular matrix.*

*Cristalhyal forms a film at the surface of the skin, thus offering the skin an optimal hydration and protection from external aggressions.*

## The Anti-Aging product line includes

### ANTI AGING **Wrinkle Correction Day Cream**

This active day cream was developed to decrease the appearance of wrinkles and to delay the signs of aging. The cream contains **Leontopod Stems GX™**, stem cells extracted from the Swiss Alpine plant, the Edelweiss. Using the anti aging properties of these plant stem cells in this advanced cream helps to reduce wrinkle depth and enhance the elasticity and vitality of the skin.

The result is a nurturing and moisturizing cream that reduces the appearance of wrinkles and improves skin firmness and luminosity.

In addition, the formula contains **Cristalhyal™**, a pure powder of Hyaluronic Acid (HA) that forms a film at the surface of the skin, thus offering optimal hydration and protection from external aggressions.

50ml

### ANTI AGING **Energizing Night Cream**

This innovative organic certified formula contains **Gardenia Stems GX™**. These extraordinary stem cells are extracted from the Gardenia Jasminoides plant to provide a wide protection for the collagen network in order to restore a youthful skin appearance. Repeatedly using this night cream improves the texture of the skin and gives it a healthy, young appearance and a fresh glow.

In addition, the formula contains **Cristalhyal™**, a pure powder of Hyaluronic Acid (HA) that forms a film at the surface of the skin, thus offering optimal hydration and protection from external aggressions.

50ml

### ANTI AGING

#### **Restorative Eye Cream**

This innovative eye cream contains **Echinacea Stems GX™**, stem cells extracted from the Echinacea angustifolia plant, which is designed to preserve the delicate eye contour, reinforce the skin and help to reduce the appearance of dark circles around the eyes.

In addition, the formula contains **Cristalhyal™**, a pure powder of Hyaluronic Acid (HA) that forms a film at the surface of the skin, thus offering optimal hydration and protection from external aggressions.

30ml

### ANTI AGING

#### **Protecting Face Serum**

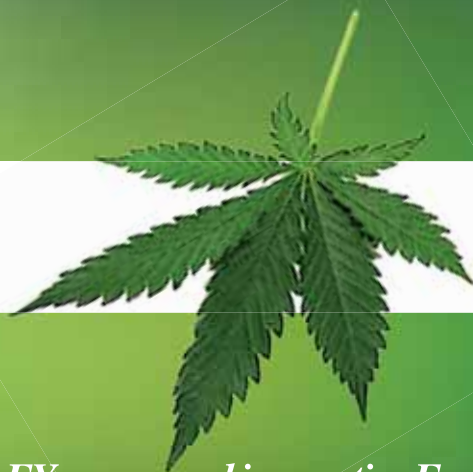

An excellent innovative formulation to combat the effects of time.

**Leontopod Stems GX™**, stem cells extracted from the Edelweiss plant, help to reduce wrinkles, support the collagen network and enhances the elasticity and vitality of the skin.

In addition, the formula contains **Cristalhyal™**, a pure powder of Hyaluronic Acid (HA) that forms a film at the surface of the skin, thus offering optimal hydration and protection from external aggressions. Using this serum on a daily basis will reduce the wrinkle intensity and show a visible improvement in skin firmness and luminosity.

## HEMP VALLEY

*Organix Cosmetix is proud to present HEMP VALLEY, a new and innovative Ecocert and Cosmos certified line of skin care products based on Hemp Seed Oil.*

*Hemp Seed Oil has a long history of use as a multi-purpose natural remedy and has even been called “Nature’s perfect food for humanity” thanks to its high content high-quality nutrients, such Omega 3, Omega 6 and GLA. Hemp Seed Oil makes a natural choice for skin care since its unique content of fatty acids resembles the skin’s natural lipids.*

***ORGANIX Cosmetix** is proud to present **HEMP VALLEY**,  
a line of cosmetics that helps to recover and maintain the natural balance  
of the skin and the environment.*

**HEMP SEED OIL** feeds and nurtures the skin with essential fatty acids, such as Omega 3, Omega 6 and GLA at the perfect ratio. This unique content resembles the skin's natural lipids, which gives Hemp Seed Oil the power to combat skin dehydration.

**HYALURONIC ACID** is effective in reducing wrinkles depth, firming and improving skin texture. Hyaluronic Acid does so by forming a film at the surface of the skin, thus offering optimal hydration and protection from external aggressions.

**ALOE VERA** is a plant known for its soothing and healing properties. Aloe Vera is a powerful antioxidant and anti-inflammatory agent that helps to improve the skin's natural firmness and hydration.

**EMULIUM MELLIFERA** is a revolutionary emulsifier that makes the products adaptable to climate, environment and different skin types. This ingredient won a gold medal in "In Cosmetics Europe 2014" for its novelty and ability to meet the expectations of all consumers.
